2. Click "Yes"

- The system will display a warning to enter safe mode. Please click "No" to proceed without entering safe mode.

- The system will display a warning before removing the driver package. Please click "OK"

- The system will start to remove drivers, Applications and Utilities.

6. Once the driver removal is complete, click "Finish" in the AMD cleanup utility.

AMD Cleanup Utility

7. The system will require a reboot. Please restart your computer.

AMD Cleanup Utility

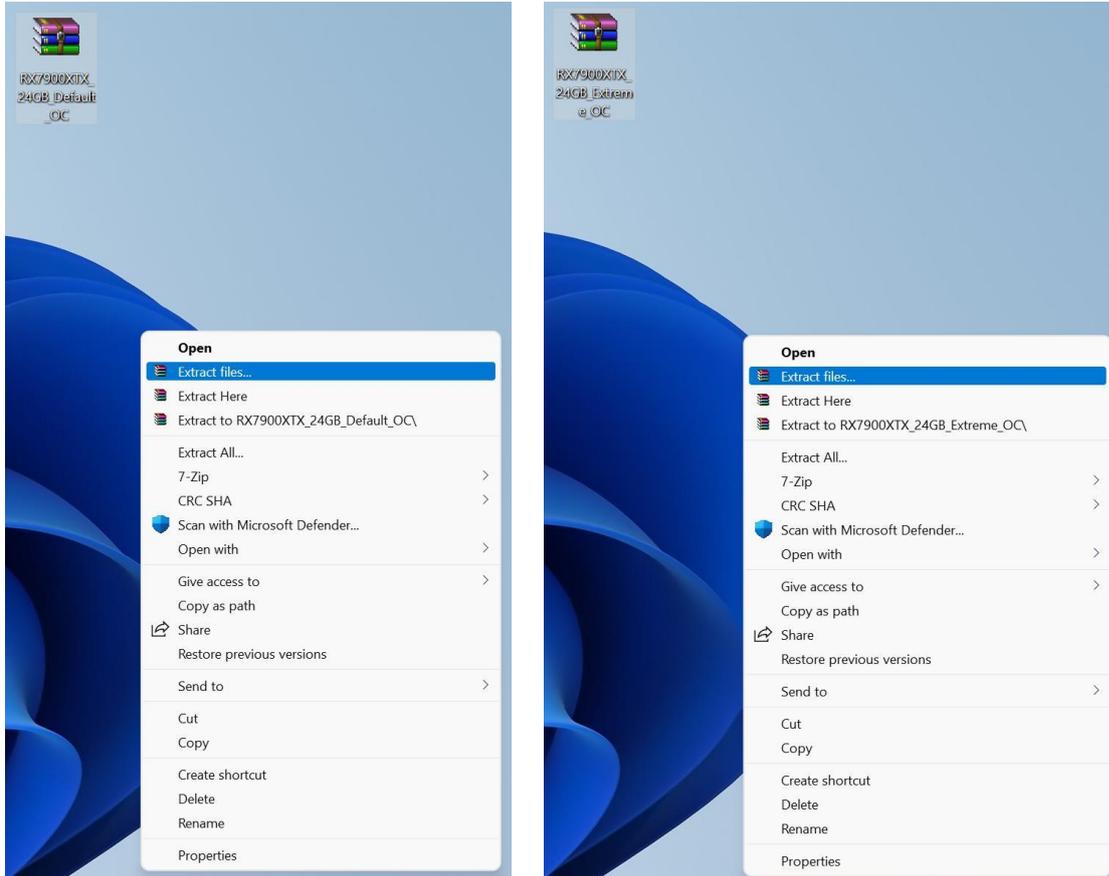

Actions taken by AMD Cleanup Utility require a system reboot.  
Would you like to reboot now?

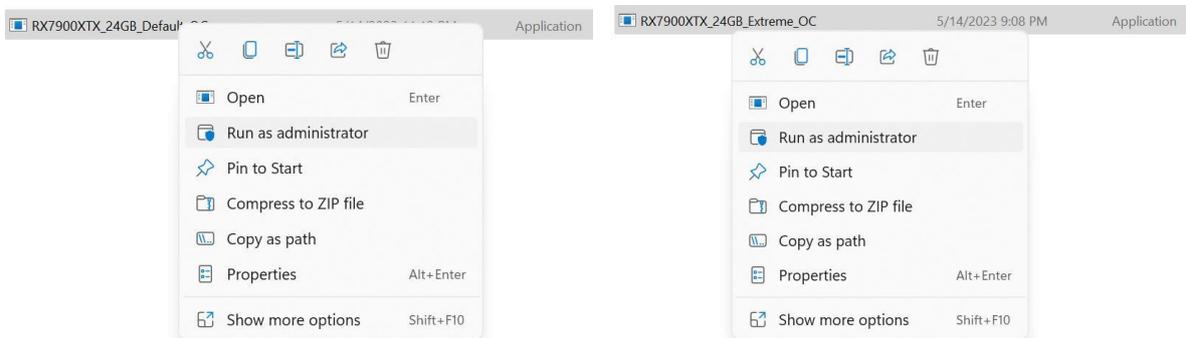

# ASRock RX7900XTX AQUA vBIOS

## Update Procedure

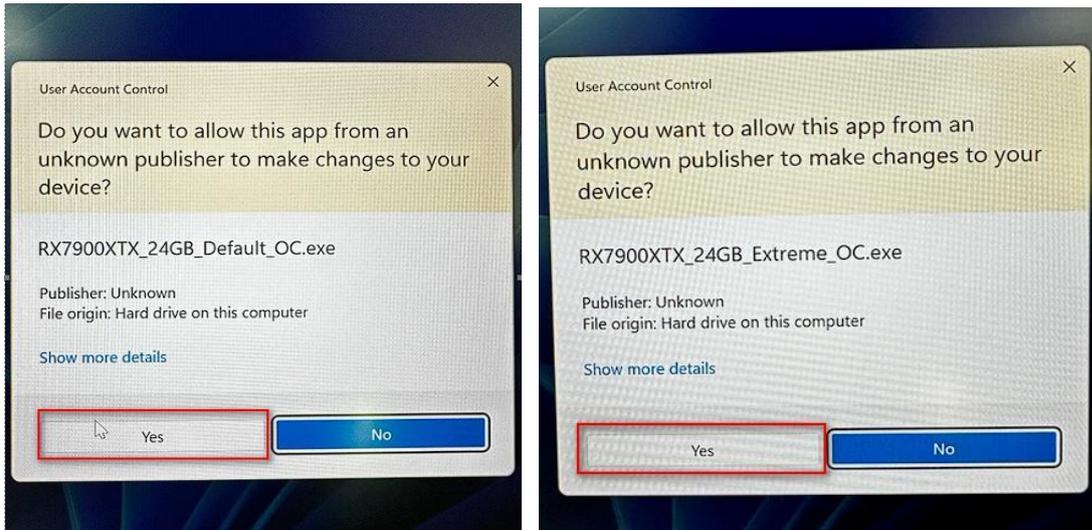

1. Please download the vBIOS from the ASRock website and extract the downloaded file.

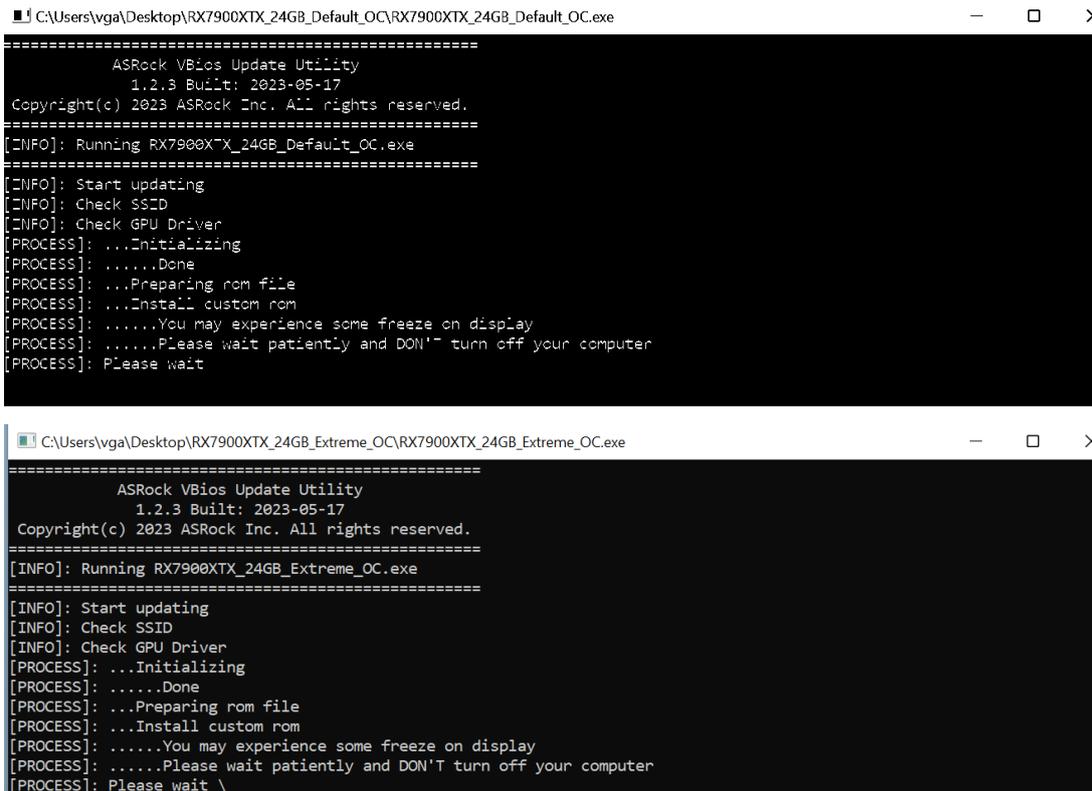

2. Run the update application as an administrator.

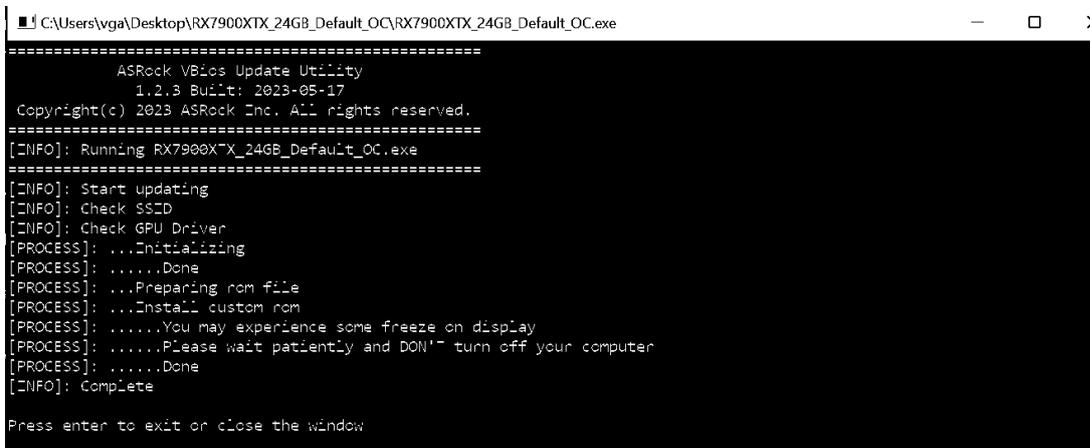

### 3. Click "Yes"

### 4. Please wait for the update procedure to complete and DO NOT take any action before it is finished.

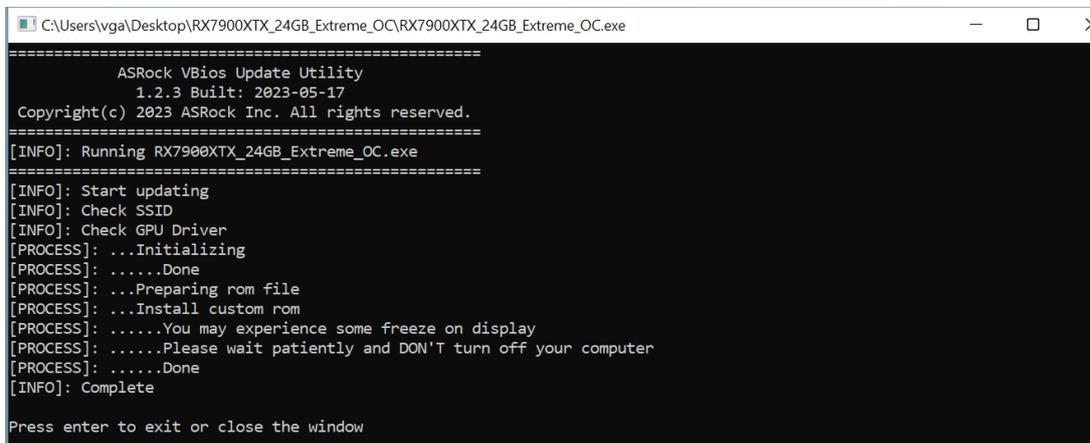

- After the update is complete and the "Complete" message is displayed, please restart your computer.
